

AGENDA

When: Thursday March 1, 2018 at 15.00-16.30

Where: Novozymes, Krogshøjvej 36, 2880 Bagsværd

Definition of raw data

Are you in control of your raw data?

We will talk about definition of raw data, requirements and practical examples of paper based and electronic raw data.

This meeting will be a workshop and it would be a good idea before the meeting to think about the challenges you may have with different kind of raw data in your daily work.

If you have a definition of raw data in your company then it would be very much appreciated if you could bring it with you and share it with us.
