📣 Calling all DKG members working with GVP and GCP!

Join us for an afternoon of experience sharing, discussion and networking at Genmab in Valby.

🗓️ Thursday, 22 October 2026
🕒 15:00–16:30
📍 Genmab, Valby

We will discuss two topics:

🔹 Implementation of ICH E6 R3
Share experiences with implementation in the context of GCP inspections.

🔹 When does an error require a deviation?
Using examples such as errors in PSURs or subsets of safety cases, we will discuss how companies determine when a deviation is needed. Do you use a risk-based framework, QC processes or other criteria to guide these decisions?

Programme:
15:00–15:15 | Welcome, coffee and cake with Birthe, Camilla and Thea
15:15–16:00 | Implementation of ICH E6 R3
16:00–16:30 | Criteria for initiating deviations

📝 Register by emailing dkg@dkgqa.com by Monday, 19 October 2026.

Bring your questions and experiences—we look forward to learning from one another! 😊

On behalf of the DKG Board,
Birthe, Thea and Camilla
