

AGENDA

When: Wednesday May 23, 2018 at 15.00-16.30

Where: Lundbeck, Ottoliavej, Valby

Managing data and records throughout the data life cycle

We will talk about the different phases in the data life cycle.

This meeting will also be a workshop where we will work with examples of how to handle raw data in the different phases of the life cycle.

Please think about if you have particular raw data you would prefer to discuss in the workshop.
